

### Belvidere Township Belvidere, IL.

#### BEFORE:

Lighting is an important safety factor in buildings where maintenance equipment is stored and serviced. Belvidere Township took the necessary steps to ensure a productive and safe environment for maintenance staff. They installed LouversLED's Phoenix LED Highbays in their warehouse thus replacing their existing inefficient LED fixtures.

Back Warehouse Section BEFORE Phoenix LED Highbays

#### Existing Conditions:

- Metal Halides
- Poor lighting led to unsafe work environment.
- Poor visibility for workers at their stations.

#### 230W PHOENIX LED HIGHBAYS INSTALLED (5,000K Version)

#### AFTER:

The results are consistent with other projects where LouversLED products have been installed. With planning assistance from our knowledgeable lighting experts, Phoenix LED Highbays were placed in strategic locations to replace the old, outdated HID's. The results are both economical and dramatic.
