

Short Specification:

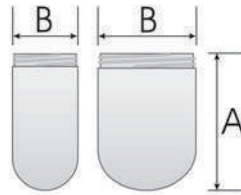

The Bulb Protector series was developed to provide maximum bulb protection along with great function and longevity. These protectors are available in smooth finished flat bottom design, a vertical prism finish with a flat bottom design or with a bulb shaped bottom design. All are provided with a standard thread and are available in acrylic or polycarbonate in several colors including clear and white. Stocking inventory includes clear and white in polycarbonate. Other colors and all acrylic bulb protectors are available as a special order. Please call for more details.
