

Short Specification:

The LouversLED Bronco Magnetic Retrofit Tube is a low-cost solution to a common retrofit problem. When an external driver is required, and LED tubes are not an option, this kit fits the bill. Approved for use in fluorescent fixtures including troffers, open strips and closed fixtures. Also a great solution for 8-foot fixtures that cannot otherwise be retrofitted, especially vaportights. The Bronco is available in 2-foot and 4-foot lengths; multiple tubes can be operated by a single driver. You've seen similar products elsewhere, but no one can match the value of LouversLED!

Application:

- Commercial Use
- Conference/Meeting Rooms
- Factories
- Hospitals
- Hotels
- Institutional Buildings
- Offices
- Residential Buildings
- Schools/Colleges/Universities
- Vaportight Lenses

Features:

- UL/cUL Listed; E468047
- Mercury free
- Easy installation
- Color temp: 4,000K or 5,000K
- CRI: >80
- L70 is 50,000 hours
- 5 year limited warranty
