

Short Specification:

Reinvent the lighting environment and turn harsh, fluorescent lighting into something soothing and unique! Sky Lenses can be used for diffused lighting in homes, offices, restaurants and many other applications. The possibilities are endless!

- Made from acrylic material with vivid, digitally printed images.
- Can be custom sized to fit almost any fixture up to nominal 2' x 4', but there are larger sizes available. These can be quoted on request.
- Will install in just minutes – Custom or Standard
