

Short Specification:

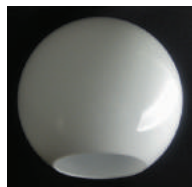

The Louvers International line of spheres comes with numerous options in order to be used in many different roles. Plastic spheres save on maintenance costs by resisting aging, discoloration, vandalism, and breakage. Simple in design, they are easy to handle and install. Available accessories like flanges and heat shields add to their versatility.

Features:

Polycarbonate

- Polycarbonate is a superior engineering plastic material for extreme requirements.
- UV stabilized to ensure a long life.
- Has high continuous working temp. of up to 257 °F (125 °C) even under extreme environmental conditions, allows the installation of lamps with a high wattage.
- Has high impact resistance and durability that remain even at subzero temps. (down to -40 °C)

Acrylic

- Acrylic is a material with unsurpassed resistance to weathering and aging.
- Has an exceptional brilliance which does not diminish even after prolonged use due to an optimum surface hardness.
- Acrylic lamp housings are highly competitive particularly with modern light sources where the maximum working temperature does not exceed 194 °F (90 °C).

Options:

Materials: Acrylic or Polycarbonate

Sizes: Nominal sizes from 6" to 36" (2" increments)

Colors: Clear, White, Bronze or Smoke

Necks: None, Flared, Screw Threaded, Twist Lock

*Not all options are available for all sizes. Please call for details.

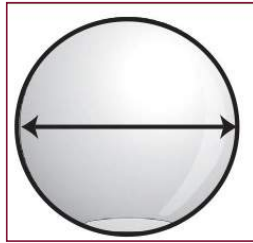

Ordering Chart:

PRODUCT	MATERIAL	SIZE*	COLOR	NECK
LIRG - Sphere	A - Acrylic P - Polycarbonate	6 = 6" Diameter 8 = 8" Diameter 10 = 10" Diameter 12 = 12" Diameter	C - Clear W - White B - Bronze S - Smoke	[none] - None F - Flare S - Screw Threaded T - Twist Lock
		* Sizes go up to 36" in 2" increments		

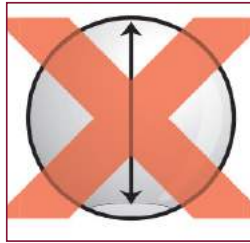

Sample Part Number: LIRG-A-10-W

Ordering Guide:

- When measuring a globe, be sure to measure from side to side; not from top to bottom.

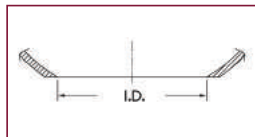

Correct

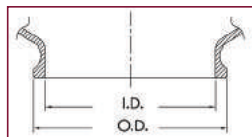

Incorrect

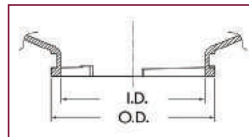

- Select mounting method: Which type and size of neck do you need or want for your application?

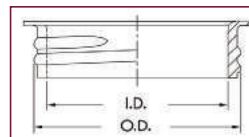

Neckless
