LIBERTY LINEAR LED STRIP FIXTURE

Liberty Linear LED Strips feature a sleek and modern profile making this fixture ideal for a variety of applications. Wall mountable – ADA compliant, offering multiple CCT and lens options, comes standard 0-10v dimmable. Battery backup, multiple cord/plug and occupancy/motion sensor options also available. The Liberty was awarded the 2017 IES Progress Report Selection.

HUSKER ORNAMENTAL POST RETROFIT

The Husker eliminates the socket and ballast, removing the possibility of snapping off the socket due to the weight of a corn cob lamp. The design of corn cobs is inherently flawed for this application. This Post Top retrofit is designed and made in the USA, with plenty of CCT and CRI combinations to choose from. The Husker is easy to install and much better investment. Contact us for your custom Husker retrofit solution today.

ADVANTAGE VAPORTIGHTS

The Advantage Vaportight LED series is approved for use in vandal-resistant, dust, wet and spray-down locations. This series features multiple T5 and T8 lamp configurations and comes standard with polycarbonate lenses and stainless steel latches. It's IP66 rated and certified NSF/ANSI 2 — Light Fixture for Splash Zone and Non Food Zone. We offer 2ft, 4ft and 8ft versions with multiple body-styles available. Multiple sensors, battery backup, dimming and multiple cord/plug options available.

ESR EXIT SIGN RETROFIT KIT

ESR is a UL-924 rated LED exit sign retrofit approved for edge-lit and box-style exit signs. They are approved for use with Alkco, Cooper, High-lites, Lightolier, Lithonia, Surelites, Big Beam and Western Lighting signs and many more. Easy to install and eligible for several incentives such as LEED points and utility rebates (ComEd). NYC and City of Chicago Approved.

LED CUSTOM LED SIGNS

Introducing our custom LED sign types: Barrel Standoff, Table Top, Cable Hung & Powered, Puck Light and Lightbadge. These custom made floating signs use Edge-Lite Technology to bring a unique touch to any display/room. We offer a couple of stock sizes using standard lettering and standard colors, or we can customize to your needs. We can do non-standard sizes and custom logo/artwork. Custom clear whiteboard plastic that works with standard dry erase markers. UL48 approved. The LED Barrel Standoff Signs were awarded the 2018 IES Progress Report Selection.

FLUORESCENT ADVANTAGE VAPORTIGHT

The Advantage Vaportight fixtures are approved for use in vandal-resistant, dust, wet and spray-down locations. This series features multiple T5 and T8 lamp configurations and comes standard with polycarbonate lenses and stainless steel latches. It's IP66 rated and certified NSF/ANSI 2 — Light Fixture for Splash Zone and Non Food Zone. We offer 2ft, 4ft and 8ft versions with multiple body-styles available. Occupancy sensor, battery backup and multiple cord/plug options available.

FLUORESCENT HIGHBAY

The Linear Fluorescent Highbays offer cost-effective lighting for medium and highbay applications. Their design features a precision-formed Miro 4 reflector to achieve maximum light output and easy accessible class P electronic ballasts, CEE approved. Occupancy sensor, battery backup, wireguard, lens and multiple cord/plug options available.
