

Overview

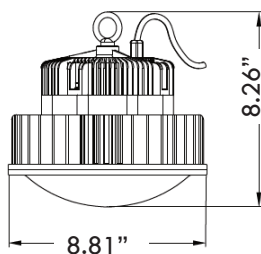

The Roswell is a UFO style LED highbay, designed to provide efficient lighting in a compact, IP65 rated housing. UFO luminaires have become a staple of the lighting industry and LouversLED is not one to buck a trend.

The Roswell features solid yet lightweight construction for extreme durability and easy installation. The standard eye hook allows for a number of mounting options. The included external cord makes wiring a breeze. The driver and LEDs are housed separately to maximize heat dissipation.

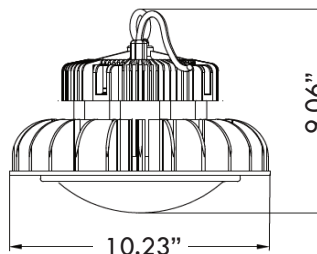

The Roswell is available in 3 different wattages, 100W, 160W, 200W, allowing for mounting heights of 35' or more. This is the perfect highbay for production areas, dirty environment warehouses, gymnasiums, and a number of other applications.

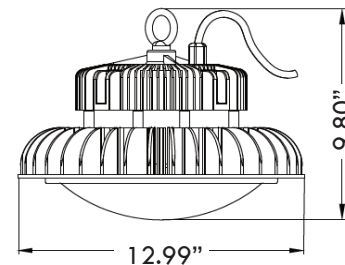

MODEL	WATTS	LUMENS	VOLTS	LPW
ROS-C1-100W(4000K)	98.89	12,814.80		129.59
ROS-C1-100W(5000K)	100.00	14,000.00		140.00
ROS-C2-160W(4000K)	163.38	20,670.10	120/277V	126.92
ROS-C2-160W(5000K)	160.00	22,400.00		140.00
ROS-C2-200W(4000K)	202.69	25,739.50		126.99
ROS-C2-200W(5000K)	200.00	28,000.00		140.00

100W

160W

200W

Features

- Up to 140 LPW
- Operating Temp -40 °F to +131 °F
- IP65
- Mercury Free
- Shatterproof polycarbonate diffuser
- CRI >80
- Spacing between driver housing and heat sink allows for better heat dissipation
- Quick field install time
- 0-10V dimmable (down to 10%)
- L70 at 50,000 Hours
- 5 year warranty

Applications

- Warehouses
- Factories
- Storage Facilities
- Gymnasiums
- Manufacturing Plants
