

Belvidere Township Belvidere, IL.

BEFORE:

Lighting is an important safety factor in buildings where maintenance equipment is stored and serviced. Belvidere Township took the necessary steps to ensure a productive and safe environment for maintenance staff. They installed LouversLED's PHX LED Highbays in their warehouse thus replacing their existing inefficient LED fixtures.

Front Warehouse Section BEFORE PHX LED Highbays

Back Warehouse Section BEFORE PHX LED Highbays

Existing Conditions:

- Metal Halides
- Poor lighting led to unsafe work environment.
- Poor visibility for workers at their stations.

230W PHX LED HIGHBAYS INSTALLED (5,000K Version)

AFTER:

The results are consistent with other projects where LouversLED products have been installed. With planning assistance from our knowledgeable lighting experts, PHX LED Highbays were placed in strategic locations to replace the old, outdated HID's. The results are both economical and dramatic.

Front Warehouse Section AFTER PHX LED Highbays

Back Warehouse Section AFTER PHX LED Highbays

PHX LED Highbays:

- Wattage equivalent to a 750-1,000W HID fixture
- Reduce annual costs
- Improve visibility and safety for staff
