

This Personal Protective Equipment (PPE) Face Shield was designed to protect at-risk front-line health care workers.

- Clear Polycarbonate visor with foam backing and adjustable elastic for a tight, yet comfortable fit.
- Clear PET shield is 9.5" high and delivered unattached to the visor.
- Shields are easily attached to headband visors by quickly snapping into place.
- Visors and Shields sold separately for replacement purposes.
- Durable visors are re-usable.
- Snap off a used shield and snap on a new one.
- Thin (4mil) shields feature anti-fog coating on both sides.
- Thicker shields (>7mil) are durable and easy to clean, but do not have anti-fog coating.
- Shields, visor headbands and foam can be cleaned with isopropyl alcohol or hand sanitizer. Discard if any degradation is observed.

Please contact us for other requirements or thicknesses. Packaging and face shield designs may be modified at any time without notice.
